1. Polymer Science
2. Diesel Service Technician
3. Welding
4. Early Childhood Education

Each curriculum framework follows the established format established for secondary vocational and technical programs. Draft curricula for each program were revised and reviewed with input from local district personnel and business/industry collaborators. Approved secondary curricula will be disseminated for implementation in the 2010-2011 school year.

The *Executive Summary-Secondary Curricula Frameworks* contains the following elements for each revised secondary curricula:

- ❖ Program Description

- ❖ Course Outline and Codes
- ❖ Curriculum Framework
 - Student Competencies
 - Suggested Student Objectives

All curricula frameworks are designed to provide local programs with a foundation that can be used to develop localized instructional management plans and course syllabi. Teachers, administrators, and instructional management personnel are encouraged to expand and enhance the statewide frameworks to better meet the needs of their students.

NOTE: The Office of Vocational Education and Workforce Development have provided printed, bound executive summaries for the curriculum frameworks. The completed documents are available upon request.
